Experienced and creative Web Developer with over 3 years of experience in the complete software development lifecycle, from concept through delivery of next-generation applications and customizable solutions. Expert in advanced development methodologies, tools, and processes contributing to the design and rollout of cutting-edge software applications. Looking to leverage deep technical knowledge and strong skills in JSON, XML, Scrum, and front-end development to create impactful web solutions

PROFESSIONAL EXPERIENCE

Media Mix Communications, Remote, IN May 2023 – Dec 2023

Front End Developer

- Developed web applications with a focus on client specifications, incorporating JSON and XML for data interchange.
- Actively participated in Scrum meetings, contributing to efficient project management and timely delivery.
- Collaborated with cross-functional teams, ensuring the integration of best UI/UX practices and responsive design.

GeoTech Solutions, Newburgh, IN May 2022 – May 2023

Web Developer

- Implemented responsive web designs using HTML5, CSS3, JavaScript, and ensured compliance with UI/UX principles.
- Optimized web applications for maximum speed and scalability, focusing on user-friendly navigation.

Bryan Hankins Web Services, Evansville, IN

Dec 2020 - Apr 2022

Web Developer / Manager

- Designed and developed web solutions with a focus on front-end technologies, emphasizing clean, efficient code and user-centric design.
- Maintained up-to-date knowledge of industry trends and advancements, applying innovative strategies to web development projects.

EDUCATION

- Coursera, Evansville, IN 2020
Google UX Design Certificate
- Ivy Tech Community College, Evansville, IN 2020
- **Certification of Web Foundations**

SKILLS & OTHER

- Programming Languages & Technologies: Proficient in HTML, CSS, JavaScript, PHP, with a strong understanding of XML/JSON for effective data manipulation.
- Development Methodologies: Experienced in Agile development processes, particularly Scrum, facilitating collaborative and flexible project management.
- System Architecture & Design: Knowledgeable in system architecture design, contributing to the scalability and performance of web applications.
- Linux Operating System: Comfortable working within the Linux environment, leveraging its capabilities for web development projects.
- UI/UX Design: Solid grasp of UI/UX design principles, ensuring the delivery of visually appealing and user-friendly web applications.
-
